ISO 31000 ERM Fundamentals

Training and Certification

Managing risks has become a crucial process for every organization. With a company-wide scope, the risk management process serves as a strategic analysis of risk throughout an organization, cutting across business units and departments, and considering end-to-end processes. The ISO 31000 ERM Fundamental is a workshop specifically designed to equip its participants with essential skills and knowledge in Enterprise Risk Management.

The 4-day workshop will be focused on:

- To learn the knowledge about ISO 31000 risk management principles
- To master ISO 31000 risk management framework applications
- To demonstrate the implementation of ISO 31000 risk management process systematically

PROGRAM AGENDA

	Day 1	Day 2	Day 3	Day 4
Session 1	<i>Introduction to ERM</i>	<i>Framework of Risk Management - Theory</i>	<i>Game Simulation of ERM Round 1</i>	<i>Summary of Simulation Result</i>
Session 2	<i>Introduction to ISO 31000</i>	<i>Framework of Risk Management – Case Studies and Application</i>	<i>Game Simulation of ERM Round 2-3</i>	<i>Summary of Simulation Result</i>

*Some sessions are subject to confirmation. The organizer retains the right to change, add and modify the sessions without prior notification.

This program is focused on providing a strong fundamental understanding in Enterprise Risk Management, by using a combination of instructor-led training and real-world case study analysis, using the following structure:

- **Introduction to Enterprise Risk Management (ERM)**

The concept, basic principles and leading practices of ERM, such as the COSO ERM framework and ISO 31000 Risk Management Standard.

- **The Principles of ERM**

The primary principles of risk management based on ISO 31000.

- **The ERM Frameworks**

How ERM framework will effectively assist risk management at varying levels and within specific context of the organization.

- **The ERM Process**

How ERM process should be applied in a corporate environment.

by CRMS Indonesia

ISO 31000 GAME-BASED SIMULATION

CRMS Indonesia introduced a new learning method called EMPIRisk Simulation. This learning method is based on a fun simulation game in enabling the participants to apply the materials about ERM that they learn during workshop into a real-world scenario.

A 'game-based simulation' approach will stimulate participants to be able to make risk-based decisions, and also encourage participants to:

- Think creatively in an interactive and fun environment
- Explore and develop during the decision-making process
- Share their experiences with the facilitators who are experts in risk management

HOST

Dr. Antonius Alijoyo, ERMCP, CERG, CRMA, CCSA, CFSA, CFE, CGEIT

Chair of ERMA and Principal of CRMS
Chair/Member of the Board of various organizations

The chairperson of ERM Academy who has more than 30 years of professional experiences in various industries focus on GRCS. He has been a practicing independent commissioner and board committee's chair and/or members for the last 15 years whilst consistently teaching at undergraduate and postgraduate programs for the last 25 years. Antonius completed his MBA in Marketing and MM in Finance in 1988 and 1992 respectively, and then earned his Ph.D in Economic in 2013 with a specialization on corporate governance. He has written several books on corporate governance and risk management and participated as resource speaker in many large scale international conferences and master class series across the globe among others are America, Canada, Central and Eastern Europe, UK, Middle East, Africa, Australia, and Asia-Pacific.

Leo J. Susilo, ERMCP, CERG

Principal of CRMS Indonesia

Leo is one of leading consultants for corporate governance and integrated risk management. His unique academic background i.e. technical engineering and business law enable him bring a holistic perspective of legal risk management into the integrated risk management platform. He is a member of Indonesia Institute of Director and Commissioner, Indonesia Audit Committee Association, Indonesia Engineers Association, and BAR Association. He wrote a best seller book on ISO 31000 published by PPM. Previously he had managerial experiences at senior level in Astra Group, exposed in various areas of management and business units. He joined Astra straight from graduation as an engineer from ITB, until his last posting as a director of PT United Tractors Tbk.

Fadjat Proboseno, ERMCP

Board of IRMAPA
Former Head of Audit Department at Astra International

Fadjat is the Board of IRMAPA and Technical Advisor of CRMS Indonesia. Previously he worked at PT Astra International as a Manager of Risk Advisory Department and a Manager of Internal Audit Department. His experiences on end to end implementation of Risk Management in various industries for the past 15 years lead him into an expert in utilizing Risk Management standards. He is also an independent consultant for risk management who helps many organizations in Indonesia to establish and run their risk management effectively. Fadjat has a colorful background – spending some years in United States – as a practitioner in business management and information technology.
