WHY THIS PROGRAM

Either risk professionals in specific or business practitioners in general need to keep updating their insight on Governance, Risk Management, and Compliance (GRC) in order to increase their competitive advantage in the global business. Responding to this need, we host regular International benchmark and workshop, which is designed specifically to help participants to gain deeper understanding of GRC knowledge as well as pragmatic insights of GRC implementation within global corporate environment.

LEARNING OUTCOMES

This program will provide a unique variety of professional benefits to its participants:

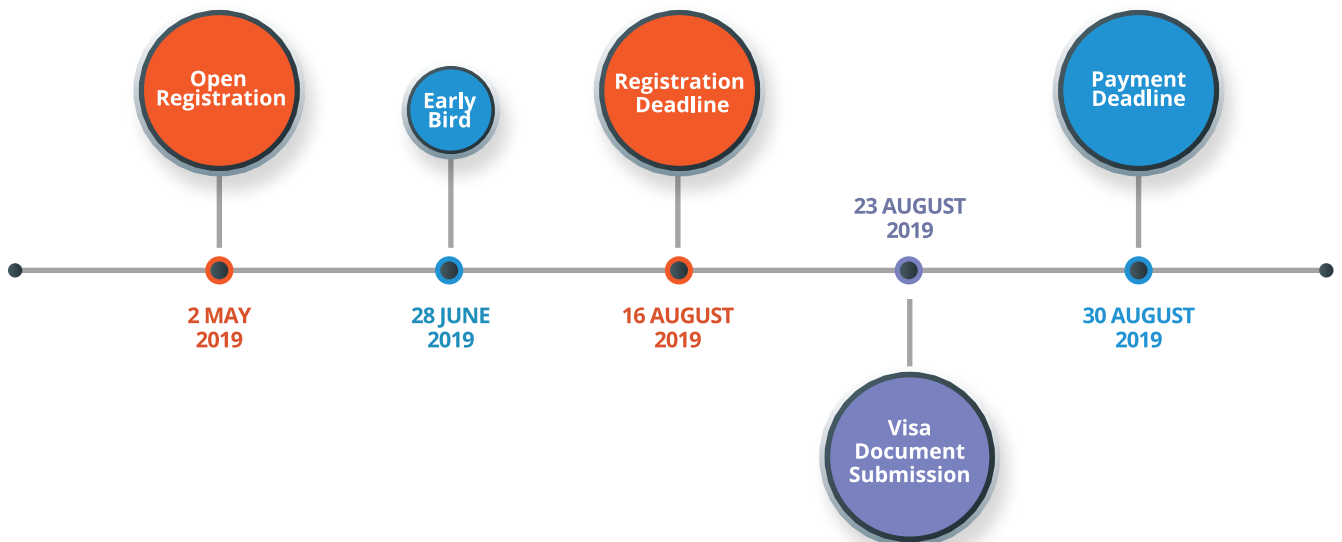

- ▲ Broaden the participants' perspective and sharpen their capabilities in GRC, from both operational and strategic points of view.
- ▲ Getting a unique chance to see how GRC is being implemented in Russian organizations, and conduct a benchmark on how well GRC is implemented in their own organizations against the visited organizations.
- ▲ Expanding the network of world class business professionals.
