Risk Governance & Leadership Master Class

Training & Certification

For Senior Managers and Board Members

The need for risk governance and leadership arises from the increasing complexity and uncertainty of the business environment. Organisations today operate in an environment characterised by rapid technological change, shifting market conditions, and increasing regulatory scrutiny. These factors have led to a growing number of risks that organisations must manage in order to achieve their strategic objectives. Effective risk governance is essential for organisations to navigate the complexities of ERM. This involves the development of a governance framework that provides a clear structure for decision-making and accountability in relation to risk management. Moreover, leadership is also critical in building a risk culture and implementing effective ERM. This involves setting the tone from the top, creating a good culture towards risks, and ensuring that risk management is integrated into the organisation's overall strategy and operations.

Risk Governance Master Class is designed specifically for senior managers and board members in charge of implementing an effective control environment and risk oversight. The program is focused on providing practical case studies and conceptual learning points that can be applied to a real-world scenario. The curriculum is based on learning by the case method, group work and personal reflection sessions.

HYBRID TRAINING

The module of Master Class on Enterprise Risk Governance has been originally developed by:

CRMS Global is a non-profit organization that focuses on Risk Management education. Their commitment is to facilitate and encourage the acceleration of risk management practices in Indonesia through knowledge advancement and sharing initiatives.

IN COLLABORATION WITH:

ERMA, a global learning centre for professionals in Enterprise Risk Management, provides a comprehensive set of Enterprise Risk Management courses and certifications, and is facilitating collaboration efforts of ERM professionals around the world.

IFC ADVISORY SERVICES ARE SUPPORTED BY:

IFC, a member of the World Bank Group, is the largest global development institution focused exclusively on the private sector. Working with private enterprises in about 100 countries, we use our capital, expertise, and influence to help eliminate extreme poverty and boost shared prosperity. IFC promotes the adoption of good corporate-governance practices and standards to improve the investment climate.

Chairperson of ERM Academy and Principal of CRMS Indonesia

Risk Governance & Leadership Master Class

Training & Certification
For Senior Managers and Board Members

PROGRAM OVERVIEW

In view of the need to help the Board better understand the issues on audit and risk an oversight and carry out their duties and responsibilities more effectively. An audit committee and a risk oversight committee may be set up to handle the specific functions mentioned on behalf of and under the delegated authority of the entire board.

The program is designed specifically for senior practicing board and committee members, as well as senior corporate governance, risk and compliance officers who are in charge of the implementation of an effective control environment and risk oversight.

PATHWAY TO PROFESSIONAL CERTIFICATION

This training program leads to certification programs:

CERG from ERM Academy (ERMA), a global learning center on ERM.

QCRO and **QRGP** from LSP MKS, BNSP Licensed Certification Body.

CERG is given to high-level ranking officers and decision makers who demonstrate their competency through superior knowledge and experiences in ensuring and overseeing the Enterprise Risk Management implementation in their organization.

QCRO is published by LSP MKS for senior management (GM/P) in all

directorates that function as Risk Owner at the strategic level and has the task of ensuring the effectiveness of the risk management process carried out by work units under his coordination, including a member of top management in charge of risk management implementation who acts as a Risk Adviser for members of the organization's top management.

QRGP (Qualified Risk Governance Professional) is designed specifically

for professionals who are working at the top management level. In this certification program, skills and knowledge of risk management based on ISO 31000 and corporate governance of these professionals will be measured.

Who should participate?

The program is designed for the following professionals:

- Senior experts/coaches on corporate governance, audit and risk management
- Corporate directors and commissioners
- Senior executives or aspiring corporate directors and commissioners looking to understand more about Audit and Risk Oversight Committees

Program Approach

The program will be delivered using the following methods:

- Practice Sharing
- Lectures, case studies and exercises
- A panel discussion on various issues related to the course topic by leading financial experts, practicing directors and commissioners, regulators and investors.
