

THE CRO FORUM

Connecting Minds, Empowering Strategies

The Indonesia Chief Risk Officer (CRO) Forum is a dynamic community that fosters collaboration, knowledge-sharing, and innovation among the nation's risk management leaders.

This exclusive platform aims to bring together Chief Risk Officers from diverse institutions to share valuable insights, exchange experiences, and collectively enhance risk management practices across industries.

The CRO Forum Program:

Exclusive Seminar & Networking

Stay at the forefront of risk management trends by tapping into the collective wisdom of experienced CROs. Share your insights and gain access to a wealth of knowledge that can elevate your risk mitigation strategies. This is also a networking opportunity to build a robust professional network with like-minded individuals who understand the unique challenges and opportunities in the Indonesian business landscape. Forge partnerships, seek advice, and expand your connections within the risk management community.

Professional Development as CRO

Enhance your skill set and stay updated on industry best practices through exclusive access to training & certification facilitated by experts in the field. Elevate your career by participating in discussions that foster continuous learning and growth.

CRO Community

Contribute to the development of industry standards and regulations by actively participating in discussions that shape the future of risk management in Indonesia. Be a driving force in promoting a robust risk management ecosystem.
