# Bridging Strategy, Sustainability, & Resilience through Risk Governance

## Training & Certification

For Senior Managers and Board Members

The need for risk governance and leadership arises from the increasing complexity and uncertainty of the business environment. Organisations today operate in an environment characterised by rapid technological change, shifting market conditions, and increasing regulatory scrutiny. These factors have led to a growing number of risks that organisations must manage in order to achieve their strategic objectives. Effective risk governance is essential for organisations to navigate the complexities of ERM. This involves the development of a governance framework that provides a clear structure for decision-making and accountability in relation to risk management. Moreover, leadership is also critical in building a risk culture and implementing effective ERM. This involves setting the tone from the top, creating a good culture towards risks, and ensuring that risk management is integrated into the organisation's overall strategy and operations.

Risk Governance Master Class is designed specifically for senior managers and board members in charge of implementing an effective control environment and risk oversight. The program is focused on providing practical case studies and conceptual learning points that can be applied to a real-world scenario. The curriculum is based on learning by the case method, group work and personal reflection sessions.

The module of Master Class on Enterprise Risk Governance has been originally developed by:

CRMS Global is a non-profit organization that focuses on Risk Management education. Their commitment is to facilitate and encourage the acceleration of risk management practices in Indonesia through knowledge advancement and sharing initiatives.

IN COLLABORATION WITH:

ERMA, a global learning centre for professionals in Enterprise Risk Management, provides a comprehensive set of Enterprise Risk Management courses and certifications, and is facilitating collaboration efforts of ERM professionals around the world.

IFC ADVISORY SERVICES ARE SUPPORTED BY:

IFC, a member of the World Bank Group, is the largest global development institution focused exclusively on the private sector. Working with private enterprises in about 100 countries, we use our capital, expertise, and influence to help eliminate extreme poverty and boost shared prosperity. IFC promotes the adoption of good corporate-governance practices and standards to improve the investment climate.

# Risk Odyssey: Engineering Momentum, Building a Resilient Risk DNA

**4-5 December  
2025**

Risk Beyond 2025 International Conference on Enterprise Risk Management is the 15th ERMA annual conference in Indonesia. As organisations face fast-changing environments—from technological disruptions and geopolitical instability to climate volatility and stakeholder expectations—the need for a resilient risk DNA is more urgent than ever.
